longer a benefit to the peasantry.here is room and food for those who

migration has been falling off, the reis side of the water have been steadery year. The following are the emitted through the banks-exclusive of private channels-since 1840

50 and 1852, which followed periods of great disn Ireland, and seasons of marked prosperity Eat those of 1853 only shows an increase of 2,000, or \$175,000; it shows that the tide of mothat during the past year upwards of seven milsome out here as emigrants. Even this large m probably falls more than a million short of the by as we have no record of the amounts which one sent to Great Britain by merchants, captains of ips, passengers, and other private channels. To what purpose have these eight millions, or more.

en applied! Not, certainly, to the payment of the assage of pauper emigrants, for the whole cost of g wish immigration did not amount to so much .is more ake y that a large proportion of our retrances have been used in the country to which ay were sent in the purchase and improvement of The action of the incumbered Estates Court. avery one knows, forced large quantities of real ate into the market, and in many instances fine portunities for investment were offered. Doubtes in this way, no small share of our American noney has gone to purchase Irish lands; many a s sent from America It is very curious to note as singularly it has been our destiny to come to Eleven Years of Free Trade.

The London Economist compares the export trade Great Britain, for the eleven years previous to 2. under the old protective system, with the same le for the eleven succeeding years under free trade, shows that, while the increase from 1831 to 1842 s £3.006,496. that from 1842 to 1853 has been no stran £20.120.766; and even if the sum of £7. 000 be deducted as being attributable to the gold overies in Australia, there will still be an inse of £13,120,766 under England's "recent amercial policy," as compared with £3,006,496 ing the same number of years prior to 1842. The total exports to foreign possessions range for vears 1831, 1842, 1853, as follows:

1842. £26,909.422 £34,119,387 £13,261,436 al to foreign countries and British possessions:

£37,164,372 £17,381,023 £98,933,781 leagued enemies of the democracy. Speaking of the bearing of these facts, which are

Africa, which has risen from £369,076 in in the calculation.

No that, while in the eleventh years prior to 2 our exports to foreign countries, other than our colonial possessions, increased by £7,210.155, he second period of eleven years, under a more thened policy, they have increased by no less a than £31,431.992. What a triumphant reply to who told us that we could not fight hostile by free imports! The chief portion of this ase has taken place, as was to be expected, to countries most directly affected by the alteramour tariff of import duties, notwithstanding bey have done little or nothing to reciprocate France, the United States, Holland, and thse Towns, (for German trade.) Brazils, Cu ba larkey, are the countries to which by far the est increase has taken place. It is an interesting at the present moment, that since 1831 our ex-

As soon as they are scalded, scraped and the seven previous years by some 26,000 entrails taken out, they are washed out and al-The chief decline has been in the emigra. lowed to dry till my hands have taken their break-Ireland. In 1849, the number of persons fast, then the process of cutting up and salting comreland for a happier home was estimated at mences, even while the flesh is quite warm, as exto declined next year to 213,649; rose perience has taught me that warm flesh will imbibe 1851 to 254,537; fell off to 224,997 in 1852; salt much more readily than cold. Place tiers of shelves two and a half feet apart on three sides of was take it for granted that the decline still con- your smoke-house, making their bottoms of strips three inches wide planks, so that air may be admited to the total emigration from the United Kingdom to the bottom as well as the sides and top of the pork. s country tell short of that of the similar period In packing down, place a row of middlings first on the shelf, next one of shoulders, and lastly, the hams the inference from these facts is irresistible that on the top. This is as much as I ever put on one mington, N. C. polation of Ireland has reached the point tier of shelves. Proceed in like manner till the whole is packed. Use five pecks of salt to the 1000 lbs. if the Patentee, we are prepared to fill all Orders at short nohe has the last ten years upwards of two millions of the hogs are large, but if small, one bushel to the tice, for every description and variety of Lamps, &c. schmen have exchanged their native home for thousand will answer, mix equal parts of powdered ry : now, it seems, the former has saltpetre and red pepper, and apply a table spoonful ders. effects of over population, and to each of the joints before the salt is put on; but if feel less temptat on to expatriate the pork is small, half that quantity will be sufficient. If the weather is moderate, six weeks will be long enough for it to remain in salt; if very cold, let it stand two weeks longer.

When the time arrives for hanging up, sift some clean Hickory ashes, and after having put the strings into the joints, brush or wipe off the salt, (never wash,) and apply a coating of fresh ashes to the flesh side of each piece, and hang up carefully; the middlings need no ashes-let it hang three or four days, and dry before you begin to smoke. After that, brought out. Our machinery is all of the latest patent, and John A. Provore, aged 3 months and 24 days. make one smoke a day only for ten or twelve days. In the month of March take down your joints and put them into bags made of thin cotton cloth, carefuly tying each bag around the string by which the pieces of meat were hung up. Hang up again and let it remain till wanted for use.

If a Montgomery Farmer will nail a sheet of tin on each corner of his smoke-house, (outside) near the eaves, he will more cheaply keep out rats, than by any of Lading, or any other kind of printing as handsomely method that I have tried. When he wishes to smoke, as they can be done at the North. Our charges will be let him cover the centre of the floor about two inches deep, with dry earth, place an iron pot or oven on it. and smoke in that way, as I have done for several years, without incurring any injury from fire. A. VIRGINIA CLODHOPPER.

September, 10th, 1854. From the Richmond Enquirer.

Know-Nothing Victories. The result of the elections in Pennsylvania. Maryland, and Ohio is precisely such as was anticipated by every intelligent person. This was the condition of things: With the Whigs were united the abolitionists, the anti-Nebraskaites, the liquor prohibitionsts, the know-nothings, and other insignificant factions of various complexions and diverse tendencies. In opposition to this heterogeneous combination of ncongruous materials the democratic party could not rally its forces with the unanimity essential to a successful resistance to so unusual and so powerful a pressure. The Nebraska bill drove off a considernatural alliance with the enemy. The secret infecimpaired the energy of such as were thought to stand firm. Thus, between open defection and hidden treachery, the democracy of the North were so demoralized as to be utterly incapable of making a saccessful stand against the Vandal irruption of the motley horde which seem for the moment to riot in the plunder and spoliation so congenial to their savage instincts. There is a fable which represents all the ravenous beasts and birds of prey in league against the monarch of the forest-an alliance into which they were driven by a common fear and a consented to suspend their mutual jealousies and enmities, and to wage a common war against the party under the shadow of whose ascendency they have languished in helpless exclusion from power and of-£65,551,579 fice. But as the birds and the beasts in the fable fell to devouring one another after the subjugation of the common foe, in like manner will ambition, jealousy, greed of office, and the savage instincts of a fiendish nature, toment discord and strife among the

The issue of the Northern elections will probably en from a late return from the board of trade to deceive some people into an exaggerated estimate of ommons, upon the operation of the the strength of the know-nothings. The members for Duplin county, as Administrator with the will annexed, laws negotiated by Mr. Bancroft, the of this order will claim credit for a result which they on Economist makes the following important have not the power to affect one way or another .at if we refer to what has been the case in rela- rence of logic, that the rise of a little quick silver prescribed by law, otherwise this notice will be pleaded in to our North American colonies, which, it was should make the weather so insufferably hot. It is ally contested, depended for their existence main- equally preposterous, in Mr. Burke's sense of the upon our navigation law and the high protecting word, to attribute the democratic defeats in Ohio and les which their timber and corn enjoyed, what do Pennsylvania to the exertions of the know-nothings. find?—the remarkable fact, that, while that trade These people control the popular sentiment about as treased in the last eleven years of protection by much as the weather-cock controls the wind. They 53,198, under a system of free trade, during the claim to direct the course of the stream, but they eleven years, it has increased by £2,565,019, only swim with the current. An insignificant eleyet there was scarcely a single person engaged ment in a vast confederacy they would yet monopowho did not stoutly oppose the policy by which lize all the glory of victory. With the valor of Falis been so signally benefited. With regard to staff, they shoulder a lifeless body, and appropriate ther British possessions abroad, the chief in the applause due to the achievements of another .has taken place in the trade to Australia, But the public mind will not be deceived. The true, has risen from £998,952 to £14,- efficient cause of the defeat of the northern democrain 1853; to India, which has risen from £5, | cy is too manifest to be misunderstood. The agency 88 in 1842 to £8,185,695 in 1853; and that to of the know-nothings is but an insignificant element

There is nothing, then, in the result of the north-The amount of our exports to foreign countries ern elections to frighten the democratic party. For our part we are disposed rather to rejoice at the is-..... £26,909.432 sue. Success, and the posession of power, will dewill thus hasten the restoration of the democracy .-The ascendency of an incongruous combination of incompatible isms must be short-lived. Better, then, for the party that the storm should come now, and expend its fury before the next election of I resident. The popular intelligence does not suffer a long eclipse. Fraud and deception may triumph for a moment, but the sober reflection and sagacity of the masses will speedily restore the reign of reason and right. Knownothingism, allving itself to every element of opposition, may achieve a partial success over the democracy, but the reaction will surely come. the delusion will be dissipated, and the idol be pulled down from its usurped dignity, and rolled in the dust amid the hootings of the multitude.

The democratic party should not be dismayed. For ourselves we mean to abate nothing from the energy and zeal of our opposition to know-nothingism. We have fought the thing from the start, and will fight it to the end, not doubting that the good sense and generous impulse of the people will ultimately give

meient and false commercial systems, require Motives .- Some cynical old bachelor has said assure them of the safety of the path which that "no woman ever gives the true motive for her are beginning to tread with so much apparent conduct, whether good or bad." It is quite certain y none could be better adapted for such a pur- she loves pretexts far better than reasons, and in most han those which we have thus briefly placed, cases would rather conceal her motives than avow them. Accordingly, never ask a lady's motive if you would get the truth. Let us take a few cases and

REVIEW OF THE WILMINGTON MARKET, FOR THE WEEK ENDING OCTOBER 19, 1854.

TURPENTINE-In this article we notice no change in prices since our review of Thursday last, and the market has ruled firm ton at 8 to \$8½ \$\mathbb{H}\$ hhd., \$1½ \$\mathbb{H}\$ box, and deck loads of Molasses at \$2 68 for virgin and \$3 35 for yellow dip, \$\mathbb{H}\$ 280 lbs., with at \$3. Two taken for Molasses to load on the coast for Boston an active demand from shippers for the latter quality. The 17.- Brig Elzira, Brown, for Sagua la Grande, by DeRos- low stage of the water courses has prevented any receipts from above tide-way, and the sales for the week ended this morning

foot up only 376 bbls., viz: Yellow dip. Hard Bbls. Virgin. 100...\$2 68...\$3 30@3 35...... . 3 35. Saturday..... 138... 2 68. 3 35 2 68 Wednesday . . . 115 . . 2 68. 3 35. This morning we note 190 bbls. on market, for which above

quotations have been offered, but sale not closed at the time of making up our report. SPIRITS TURPENTINE .- Since our review of Thursday last the market has ruled firm at 48 cents, at which there has existed a fair enquiry. There is a full supply on market, and the article seems firm this morning at our quotation. The

sales for the week foot up 2,898 bbls., as follows :1,200 bbls. at 48 cents # gallon. Friday Saturday 513 " 335 " Monday.

ROSIN-There has been considerable activity in this article for the week just ended, but owing to the small stock on market (which is lighter than it has been for a year or two past,) the transactions have been light. The quotation for Common shows an advance on last week's price of fully 25 cents \$\Belle\$ bbl. Sales of Common for the week foot up only 4,963 bbls., viz: On Thursday, 1,005 bbls. at \$1 25 for small and \$1 30 for large bbls.; Saturday, 258 do. at \$1 30 for large; Monday, 1,000 do. at \$1 374 for large; Tuesday, 1,200 do. at \$1 374 for small and \$1 50 for large; Wednesday 1,200 do., and this (Thursday) morning 300 do. at \$1 50 for large size bbls. In No. 1 we note sales on Wednesday of 50 bbls. at \$2 50: Friday 125 do. at \$1 674 @ \$2 25; Monday, 500 do. at \$1 625 o \$2 50, as in quality; and Tuesday, 150 do. at \$2 \$3 bbl TAR-The market has ruled unsteady for this article during the week, and the price seems to be regulated according to the quantity and quality of the parcels offered for sale. The transactions for the week foot up about 775 bbls. at \$3, \$3 05 \$3 10 @ \$3 15 \$ bbl .- the last sale made was at highest figure,

BEEF CATTLE-There is only a light supply in butcher' hands, and we note a fair demand. One or two small droves received this week, and sold at 5 @ 51 cents \$ 16. for grass fatted, as in quality.

CANDLES—No change to note in prices. See table for store rates, as in quantity and quality. COFFEE-Continues in fair supply, with a moderate demand

and there appears to be a better demand.

and sells from store at our quotations. See table. CORN MEAL-Remains without change in price, and we note fair stock on market. Sells at 95 cents # bushel. Corron-The receipts for a week or two past have been on-

cents for ordinary, 8 cents for ordinary to middling, and 81 EMPTY BARRELS-In Spirits Turpentine barrels we have no

change to notice, and continue former figures, at which small sales have been made. FISH-No Mullets received since last review and none or market. We notice a good enquiry for them, and parcels

would readily bring former quotation-\$6 28 bbl. FLOUR-Owing to the low stage of the river between this place and Fayetteville, (which prevents all but the lightest draught boats from running,) the receipts of Flour have been very light, which has caused the price to advance 50@75 cents on quotations of last week, and the sales have been at \$7 50 @ \$7 75 \$ bbl. for superfine. The stock in store is also light, and the probability is that the price will keep up until the river becomes in good boating order. We quote at \$7 50, \$7 75 @ \$8 \$ bbl. as the store rates. A lot of 45 bbls. (from Mecklenburg county) uninspected, sold on Friday last at \$7 \$ bbl. GRAIN--CORN continues in good supply, and the market remains dull. No receipts to notice this week, and the last sales made from vessel was at 68 cents # bushel. We quote from store at 85, 88 @ 90 cents # bushel, with a limited enquiry.

OATS—None arrived for the week; last sale from vessel was at 45 cents & bushel. There is a full supply in store, and and light demand.——Peas—Cow Peas are in demand, none on market; we note small sales at \$1 25 \$ bush. Some parcel of Ground Peas have been brought in this week, and sold from carts at \$1 20 @ \$1 25, as in quality .-- RICE-Clean is in light supply, but we notice no change in price; selling from store in the small way at 54 cents # 1b. Nothing done in rough that we are aware of, and quotations merely nominal .-

HAY-In this article we have nothing new to note. The supply in dealers' hands continues full, and the demand is limited. Received this week 668 bales Northern make, 250 of which changed hands yesterday at 50 cents # 100 lbs., 90 days, for inferior quality; and 220 bales, at auction, at 70 cents; balance unsold. LIQUORS-Common Whiskey is in very light supply, and we

notice that the price has gone cown a shade in other markets, which will probably cause a decline here; we, however, continue former quotations. See table.

Lumber-River-No sales for two or three weeks past, and re erase quotations.

Lime—In the absence of receipts for some time past, the sup-

ply in store has been nearly all worked off, and is barely sufficient for present demand. Sells at \$1 50 % cask.

Molasses—We note the arrival en Wednesday from Havana of a cargo of 200 hhds. Molasses, which is selling from wharf in lots at 23 cents & gallon. The supply in store is light, and we quote 24 @ 25 cents & gallon as store rates.

POTATOES—Irish Petatoes are in fair supply, and we note but little enquiry. Sales on Saturday and Tuesday from wharf of Scott & Ballowin's, Market-st.

60 bbls. at \$3 50; and this morning of 50 do: at \$3 \$9 bbl.;—sell from store at \$4@\$4 25. Sweet Potatoes are brought to market slowly, and the price rules high. Sales from carts and boats at 85 cents @ \$1 \$2 bushel.

Provisions—N. C. Bacon has been brought in very slowly for the week, and the receipts are not sufficient for the demand. We note sales since last review of only 6 @ 7,000 lbs. at 105 cents for shoulders and middlings, 11k cents for box round.

cents for shoulders and middlings, 11; cents for hog round, and 14 cents if ib. for hams. There is little or none in first hands, and only a small stock in retailers' hands; the article is in fair enquiry at above quotations. Western cured is in fair supply, and the market rules firm at previous quotations. Sale on Wednesday of about 10,000 lbs. at 7½ cents # lb. for shoulders, cash. See table for store rates, at which sales have been made. — LARD—The market is almost if not quite bare of this article, and we note considerable enquiry from retailers. N. C. make would readily bring 121 @ 13 cents & ib. PORK-Northern Mess continues in good supply, and prices are without change. Sales have been made for the week

at \$15 @ \$15 50 \$2 bbl., as in quantity.

SALT-Liverpool sack remains in full supply, with a light demand, and the price has declined a shade. Received this week 5,900 sacks, 1,000 of which sold on Tuesday at \$1 45 sack, 90 days; 800 previous to arrival at \$1 55, cash; and 2,800 on private terms; balance unsold. Alum is in fair suply, and not much demand. A cargo of 6000 bushels received this morning from Boston, but no sales yet made; held at 50 cents \$\mathbb{B}\$ bush. From store we quote at 60@62½ cents \$\mathbb{B}\$ bushel as in quantity.

Sugar-We note the sale at auction on Monday last of the cargo of Spanish Brig Jesusa, arrived here some weeks since from Havana, as follows: 740 boxes at from \$4 35 to \$6 45; and 40 boxes and 2 hhds. (damaged) at \$2 35 to \$4 10 \$ 100 lbs. See quotations in table for store rates. Shingles-Are in fair enquiry, and but very few arriving

We note small sales of Common during the week at \$3 25 to \$3 50 W M. Contract sell at \$6 @ \$7 W M., as in quality. TIMBER-Owing principally to the low stage of the water courses, the receipts of Timber have been light and for the week reach only 4 @ 5 rafts, which have sold at prices rangng within quotations. See table. FREIGHTS-But very little produce has been received here for a week or two past, and there is barely enough on market for the vessels now in port. Rates to New York and Philadelphia have declined a shade on some articles, and are dull at prices quoted in our table.

FAYETTEVILLE, Oct. 16.—Bacon 10 @ 11; Beeswax 24@25; Coffee—Rio 11@121, Laguira 131@00, St. Dominge 24@25; Conee—Rio H@12\$, Laguira Isa@00, St. Domingo 00@00; Cotton 7½@8; Feathers 40@45; Flour—superfine \$6 50@0 00, Fine 6 25@0 00, scratched \$6 00@0 00; Grain—Corn \$0 90@\$1 00, Wheat \$0 00@0 00, Oats 55@00, Peas \$1 00@0; Rye \$1@0 00; Hides—dry 10@11, green 4@5; Lard 11@12; Molasses—Cuba 25@ 26, New Orleans 37½@40; Salt—Liverpool (sack.) \$2 00@0 00; Alum, (bu.) 00@00. Bacon-Sales this morning at 11 cents. Cotton market firm. Flour-Sales rather above present figures, but not sufficiently marked to justify a change. Corn-No change. Turpentine-Yellow Dip \$2 85, Virgin \$2 18. Spirits 43 @

44 cents .- Obs. BALTIMORE, Oct. 17.-Flour-Sales of Howard street at \$7 75; and 350 bbls. do. at \$7 871. Sales of City Mills at \$7 50.— Rye Flour \$7a7 25, and Country Corn Meal \$4 25, city do. at \$4 Ryc Flour \$787 25, and Country Corn Meal \$4 25, city do. at \$4 50.
